

BUKOLA ADEKUNLE

Data & Reporting Analyst | Business Intelligence | Monitoring, Evaluation & Learning (MEL) Systems
[LinkedIn](#) | [Email](#) | [Portfolio](#)

Data and Reporting Analyst with experience in business intelligence, reporting automation, and data management within fintech and technology environments. Skilled in SQL, Power BI, Tableau, Salesforce, and Excel, transforming complex data into actionable insights. Experienced in dashboard development, KPI reporting, data quality management, stakeholder engagement, and data-driven decision-making.

EXPERIENCE

Business Intelligence Analyst | PalmPay (Fintech Company) | April 2025 – Present

- Automated reporting workflows and built interactive dashboards, reducing manual reporting effort by 40% and improving forecast accuracy by 12%.
- Analyzed merchant, transaction, and customer performance data, contributing to a 7% improvement in conversion rates through data-driven insights.
- Developed and maintained KPI dashboards for business, operations, and management teams to support performance monitoring and decision-making.
- Wrote and optimized SQL queries for recurring reports, ad-hoc analyses, and stakeholder requests across multiple business functions.
- Conducted data validation and reconciliation exercises to improve reporting accuracy and ensure data quality across reporting systems.
- Collaborated with Product, Operations, Finance, and Commercial teams to define metrics, track performance, and deliver actionable insights.
- Built Power BI and Quick BI dashboards to monitor business performance, identify trends, and support strategic initiatives.

Data Analyst Intern / Sidmach (Software Company) / Sep. 2024 – Mar. 2025

- Collaborated with a team of interns to develop LESNOTEAI, an AI-powered lesson note generator.
- Designed and analyzed surveys to identify user pain points and define key features.
- Supported MVP development through data-backed feature prioritization.
- Monitored user behavior post-launch and generated insights on usage patterns, retention, and feedback.
- Delivered strategic recommendations that improved user satisfaction and reduced churn.

Data & Operations Coordinator /Karisfoods (Agrofoods Company)/ Mar. 2022 – Dec. 2024

- Collected and analyzed operational data across supply chain and vendor activities to identify inefficiencies and drive process improvements.
- Built and maintained performance tracking reports to monitor KPIs, Google analytics, support budgeting decisions and implement cost-control measures.
- Leveraged Salesforce and CRM tools to manage and analyze customer data, improving engagement and optimizing workflows.
- Coordinated remote teams using data-driven insights to align operations with business goals and ensure compliance with standards

PROJECTS

IBM HR Analytics Employee Attrition & Performance

- Conducted exploratory data analysis on employee demographic, compensation, job satisfaction, work experience, and employment data to identify factors associated with employee attrition.
- Cleaned and validated the dataset using Pandas and NumPy, including missing-value checks and data quality assessment before analysis.
- Analyzed attrition patterns across departments, job roles, overtime status, age, years at company, and monthly income using cross-tabulations, descriptive statistics, and comparative analysis.
- Created visualizations using Matplotlib and Seaborn, including boxplots and distribution charts, to identify differences between employees who stayed and those who left.
- Translated analytical findings into business insights around employee retention, workforce stability, and potential drivers of turnover, supporting data-driven HR decision-making.

BCG Data for Decision Makers – Job Simulation / Forage / April 2026

- Completed a job simulation focused on advising a hypothetical client on multi-channel ad campaign performance.
- Analyzed customer conversion trends using simulated data to assess campaign effectiveness across channels and audiences.
- Synthesized insights and delivered a clear, data-backed recommendation tailored to the client's marketing goals.

Deloitte Australia Data Analytics Job Simulation / Forage / Feb. 2026

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusion

SKILLS

Data Analysis, Business Intelligence | SQL, Python, Pandas, NumPy, Excel, Power BI, Data Visualization, Dashboard Development

Matplotlib, Seaborn | Salesforce, CRM, Database Management | Reporting & Analysis, Statistical Analysis

Social Media Analytics | Customer/operational data analysis | Data collection methodologies

Operations Management | Forecasting, Accounting, Process Improvement | Stakeholder reporting

EDUCATION

Higher National Diploma, Accounting / Lagos State Polytechnic / Jan. 2020 – Dec. 2023

Associate's Degree, Data Analytics / CPN NSQ / Sep. 2024 – Mar. 2025
