

# BUKOLA ADEKUNLE

Business Intelligence Specialist | Data Analyst

[LinkedIn](#) | [Email](#) | [Portfolio](#)

Detail-oriented Data Analyst with experience in Business Intelligence, Operations, and Analytics. Skilled in transforming raw data into actionable insights, building dashboards, and supporting strategic decisions. Proficient in SQL, Excel, Power BI and reporting tools, with a strong foundation in data modeling, reporting, and statistical analysis. Adept at bridging the gap between data, business operations and customer-facing deliverables.

## EXPERIENCE

---

### **Business Intelligence Analyst | PalmPay (Fintech Company) | April 2025 – Present**

- Automated sales reporting and built interactive dashboards, reducing manual work by 40% and improving revenue forecast accuracy by 12%.
- Analyzed funnel and customer segment performance, driving a 7% improvement in conversion rates and shaping targeted sales strategies.
- Develop and maintain KPI dashboards across sales, operations, and customer segments to support senior stakeholder decision-making.
- Collaborate cross-functionally with product, marketing, and operations teams to deliver aligned, data-driven insights.

### **Data Analyst Intern | Sidmach (Software Company) | Sep. 2024 – Mar. 2025**

- Collaborated with a team of interns to develop LESNOTEAI, an AI-powered lesson note generator.
- Designed and analyzed surveys to identify user pain points and define key features.
- Supported MVP development through data-backed feature prioritization.
- Monitored user behavior post-launch and generated insights on usage patterns, retention, and feedback.
- Delivered strategic recommendations that improved user satisfaction and reduced churn.

### **Data & Operations Coordinator | Mar. 2022 – Dec. 2024**

- Collected and analyzed operational data across supply chain and vendor activities to identify inefficiencies and drive process improvements.
- Built and maintained performance tracking reports to monitor KPIs, support budgeting decisions, and implement cost-control measures.
- Leveraged Salesforce and CRM tools to manage and analyze customer data, improving engagement and optimizing workflows.
- Coordinated remote teams using data-driven insights to align operations with business goals and ensure compliance with standards

## PROJECTS

---

### **BCG Data for Decision Makers – Job Simulation | Forage | April 2026**

- Completed a job simulation focused on advising a hypothetical client on multi-channel ad campaign performance.
- Analyzed customer conversion trends using simulated data to assess campaign effectiveness across channels and audiences.
- Synthesized insights and delivered a clear, data-backed recommendation tailored to the client's marketing goals.

### **Deloitte Australia Data Analytics Job Simulation | Forage /Feb. 2026**

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions
